Weld CDI reference implementation and compatibility test kit from JBoss Weld reference excellent documentation for CDI Evolved from Seam 2 core Included in GlassFish and JBoss AS Can be used with Tomcat, Jetty Can be used in standalone Java SE

Boston:2010 - jboss.org

If CDI should instantiate the bean we delegate to the WeldInjector which calls InjectionTargetproduce() to obtain the instance and inject the constructor parameters via Weld Otherwise, we just delegate to the normal instantiate action which uses the Microcontainer to do the instantiation and constructor

PATTERNS & BEST PRACTICES FOR CDI

• CDI critical part of Java EE - now and going forward • CDI well-received by community • Focus on loose-coupling, Java-centric type-safety, annotations, expressiveness, fluency and ease-of-use • Utilize CDI effectively to maximize benefits • Continuously refactor to patterns • Have fun!
